

Tetra Medical Supply Corp. Introduces the Tetra-Flex Clip Free Woven Elastic Bandage

The market's first heavy-duty woven bandage with a self-closure system

Niles, IL – March 15, 2017 — Tetra Medical Supply Corp., a leading provider of general wound care products, orthopedic soft goods, and hot/cold therapy, announced today the launch of its new Tetra-Flex™ CF (Clip Free) woven elastic bandage. The Tetra-Flex CF has taken the company's highest quality, heavy-duty woven bandage to the next level with a new self-closure system.

The new Tetra-Flex CF is made of a premium weave of spandex and selected long staple cotton. This high-quality bandage offers a re-engineered self-closure system, making it quick and easy for clinicians and patients to use. Hospitals, orthopedic surgeons/clinics, head athletic trainers, sports medicine doctors, and vein clinics often consider this bandage's compression characteristics and durability critical to post-op procedures or treatment. Its design eliminates the need for tape or clips to keep it secure and in place, allowing it to be re-adjusted easily. Furthermore, this new latex free offering is available in sterile and non-sterile options, and in a variety of lengths and widths. The 5.5 yards (stretched length) option is available in four standard widths (2", 3", 4" and 6") while the 11 yards (stretched length) version comes in 4" and 6" widths. For further product information, please visit our [new product page](#) on the Tetra website.

“For over 100 years Tetra Medical Supply Corp. has been a leader, bringing premium quality, cost effective bandage solutions to the healthcare industry,” stated Constance Shier, Chairman of the Board and Chief Financial Officer at Tetra Medical Supply Corp. “We are first to market with our Tetra-Flex Clip Free heavy-duty woven elastic bandage made of the highest quality material.”

The Tetra-Flex CF is available now. To see if you qualify for a free sample, please contact Sandy Ketteleman at (800) 621-4041.

About Tetra Medical Supply Corp.

Established in 1913 in Chicago, IL and certified as a Woman Owned Business since 1977, Tetra Medical Supply Corp. manufactures and distributes orthopedic soft goods, hot/cold therapy and a complete line of general wound care products, including one of the most diversified selection of bandages in the market today. Our primary goal is to provide significant value to our customers through a proven track record of delivering cost savings, providing on-time delivery, generating SKU consolidation, and enhancing patient safety (e.g. latex free and clip free bandages). Our tools and expertise allow us to provide quick and easy evaluations and conversions.
